Projects/Achievements:

Founded Valley County Citizens for Sustainability, a non-profit organization dedicated to promoting sustainable building practices and educating the community on long-term resource planning. Successfully advocated for environmentally conscious approaches and contributed to a more sustainable future.

As McCall-Donnelly High School's student body president, I focused on strengthening peer bonds and beautifying our campus. Through my leadership, I fostered a sense of unity and belonging among students while transforming our facilities into inspiring spaces. Along with my co-president, we created a vibrant and engaging high school experience that left a lasting impact on our entire community.

Was crucial in the reinstatement of the Classics Club at Hampden-Sydney College. Upon the club becoming officially recognized, I was voted in as the president and oversaw the week-to-week operations as well as projects surrounding visiting guest speakers and club trips to visit museums and other cultural events.
